

Ontario Toxics Reduction Plan Summary Public Disclosure – 2017

Facility Details

Facility Name: Kilian Canada ULC
 Address: 75 Torlake Crescent, Toronto, ON M8Z 1B7
 NPRI Identification Number: 4462
 Two Digit NAICS Code: 33
 Four Digit NAICS Code: 3329
 Six Digit NAICS Code: 332991
 Number of Full-Time Employees: 40
 UTM Spatial Co-ordinates: Easting: 618911; Northing: 4829952

Public Contact at Facility

Name: Pat Kelly
 Position: Plant Manager
 Address: 75 Torlake Crescent, Toronto, ON M8Z 1B7
 Phone Number: (416) 252-5936

Facility Description

Kilian Canada ULC (Kilian) produces exterior casings for industrial roller and ball bearings using various grades of steel.

Substances Information

Manganese (CAS # 7439-96-5, NA-09) and Lead (CAS # 7439-92-1, NA-08) are components of various grades of steel bars that are mounted on lathes and machined to form the bearing casings. Grindings are collected and sent to an off-site recycler.

Substance Accounting Details

Process Type	Manganese (tonnes/a)			Lead (tonnes/a)		
	2017	2016	% Change	2017	2016	% Change
Enters (total)	>1 to 10	>10 to 100	-21%	>1 to 10	>1 to 10	-21%
Created	0	0		0	0	
In/on Product	>1 to 10	>1 to 10	-11%	>0 to 1	>0 to 1	-10%
Released, as Air Emissions	0	0		0	0	
Released on-site to land	0	0		0	0	
Released to water	0	0		0	0	
Released, for Recycling	>1 to 10	>1 to 10	-23%	>1 to 10	>1 to 10	-24%
Released to Disposal	0	0		0	0	

Historical Comparison

Kilian decreased the amounts of lead and manganese entering the site with associated decreases in the amounts of material sent off-site for recycling. Lead is the exception as more lead was contained in the products of the facility.

Reduction Plan Objectives and Targets:

Kilian intends to address methods to reduce the generation of disposable and recyclable amounts of materials containing the identified toxic substances of lead and manganese.

Reduction Options Under Consideration for Implementation:

Kilian is reviewing Modified Equipment, layout or piping options with a view to new equipment purchase as older equipment becomes obsolete.

Steps to Implement Options

No steps have been taken to implement an option as no equipment has become obsolete.

Additional Actions and Their Impact on Substance Use, Creation and Discharge:

No additional actions have been implemented to reduce the usage of lead and manganese.

Amendments or Changes to Toxic Reduction Plans During Report Period:

No amendments or changes have been made to the facility's toxics reduction plans.

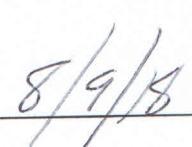

Copy of Certification:

As of [date], I, Pat Kelly, certify that I have read the report(s) on the toxic substance reduction plan(s) for the toxic substance(s) referred to below and am familiar with its/their contents, and to my knowledge the information contained in the report(s) is factually accurate and complies with the Toxics Reduction Act 2009 and Ontario Regulation 455/09 (General) made under that Act.
